

Traditional Cycle Shelters

At a glance

Robust all-weather construction
Choice of galvanised or powder coated sheet steel side and back panels
Ad stable feet for on-site positioning
Paraballs for surface mounting included. Must be bolted to 250mm thick concrete for stability
Site survey and installation service available
Perforated panels are supplied light grey as standard
Cycle racks and hoops sold separately

These shelters provide storage and security with a screened appearance for landscaped sites. Selected shelters can also be used for mixed parking of both cycles and motorcycles by fitting bike racks in one section.

Framework Colour Options

RAL 7035
Light Grey

RAL 6024
Pine Green

RAL 5017
Traffic Blue

*Insert (L) for Light Grey, (G) for Pine Green or (B) for Traffic Blue
 Other colours available at extra cost, speak to sales for details.

If sited within 5 miles of the coast, we strongly recommend an additional weather treatment for all steel work. This is available for a modest additional charge.
