patented technology

OUTDOOR USE

DOMESTIC USE

PROJECT USE

# Fixscreen® 150 F

## INTRODUCTION

From now on, NV RENSON® Sunprotection-Screens offers the possibility to install the Fixscreen® 150 without the need of an underlying window: the Fixscreen® 150 F (Free). This offers a wide range of new mounting possibilities that contribute to the RENSON® Healthy Outdoor Concept. This concept aims to take the outdoor living space to a higher level taking three levels of comfort into account: Physical comfort, Thermal comfort and Visual comfort.

Because of the Fixscreen® technology, by which the sun-protecting fabric runs through the side channels with an intelligent zip-system, the Fixscreen® 150 F is wind tight in any position.

Further on, the possibility exists to integrate Crystal windows into the fibreglass fabrics.

## PRODUCT

- Intelligent wind tight guidance system
- Electrical control
- Operates silently
- Seal strip for a good connection with the threshold
- Can be combined with fibreglass fabrics in a wide range of colours
- All fabrics have a very high sun protection factor
- Crystal windows can be integrated in the fibreglass fabrics
- Easy to maintain thanks to the use of durable materials
- Profiles available anodised or powder coated in any RAL colour
- Compatible with any given style

## APPLICATIONS

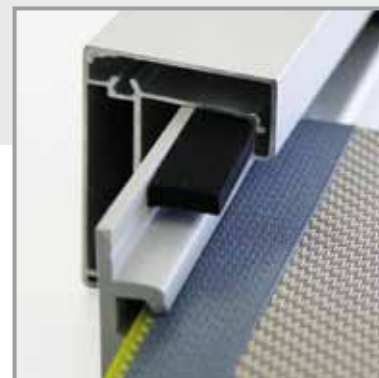

- Can be integrated in wooden, aluminium or steel constructions, terrace coverings, marquees, pergolas, ...
- Applicable with installation methods 1, 5 & 6
- For residential construction, catering industry and projects: hospitals, rest homes, offices, schools, etc

## TECHNICAL CHARACTERISTICS

- Maximum dimensions: W 6000 X H 2700 mm
- Maximum surface: 16,2 m<sup>2</sup>
- Crystal windows possible
- 5-year guarantee
